Introduction

Precautions and Maintenance

- For indoor use only.
- To avoid risk of fire or electric shock, do not expose this appliance to moisture.
- To avoid overheating, do not block the ventilation holes on the back of this digital photo frame at any time.
- Keep this Multimedia Digital Photo Frame out of sunlight. Direct sunlight may cause damage.
- Do not dismantle the Multimedia Digital Photo Frame. There is a risk of electric shock, and there are no user serviceable parts inside. Dismantling your Multimedia Digital Photo Frame will void your warranty.
- Do not use the Multimedia Digital Photo Frame if conditions could allow condensation to occur, or damage may result.

Cleaning the LCD Screen

- Treat the screen gently. The screen on the multimedia Digital Photo Frame is made of glass and can be easily scratched or broken.
- If finger prints or dust accumulates on the LCD screen, we recommend using a soft, non-abrasive cloth such as a camera lens cloth to clean the LCD screen.
- If you use the LCD cleaning Kit sold at retail outlets, do not apply the cleaning liquid directly to the LCD screen. Moisten the cleaning cloth with the cleaning solution and apply the cloth to the screen.

> **WARNING:**
> **Please STOP the unit before inserting or removing a card or USB Drive. Failure to do so may cause damage to the card/USB and the unit.**
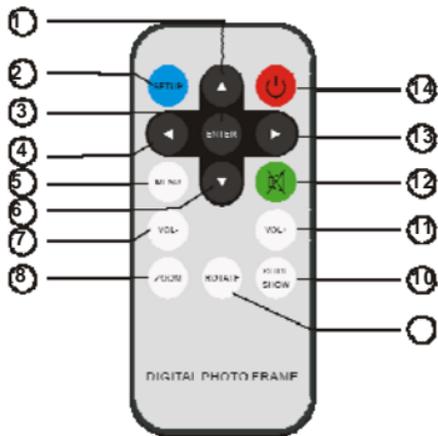

Important Safety Precautions

- Read these instructions.
- Heed all warnings.
- Install in accordance with the manufacturer's instructions.
- Do not install near any heat sources such as radiators, heat registers, stoves or other apparatus
- (including amplifiers) that produce heat.
- Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has
- two blades with one wider than the other. A grounding type plug has two blades and a third
- grounding prong. The wide blade or the third prong is provided for your safety. If the provided
  plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- Protect the power cord from being walked on or pinch particularly at plugs, convenience
  receptacles, and the point where they exit from the apparatus.
  Only use attachments/accessories specified by the manufacturer.
  Unplug this apparatus during lightening storms or when unused for long periods of time.
- Refer all servicing to qualified service personnel. Servicing is required when the apparatus has
  been damaged in any way, such as power supply cord or plug is damaged. Liquid has been
- exposed to rain or moisture, does not operate normally or has been dropped.
